

Hampton Bayside Bowls Club, Inc

Child Safety Policy

Hampton Bayside Bowls Club (HBBC) is committed to advocating for the safety of the youngest members of our community. As a community organisation, children are members and visitors to our club and we ask that all who visit the club understand and respect the rights of children to be welcomed, feel safe and be advocated for as contributing members to society.

We follow the national child safe principles and comply with the '11 Safe Standards' set down by the Victorian Commission for Children & Young People in our operations, by advocating for safe, happy and engaged children. Specific child safety requirements are included in our Code of Conduct.

The Board of Management is responsible for administering and monitoring the HBBC's adherence to these principles, policies and codes.

We aim to foster a culture where families are welcomed and supported, and children feel included and empowered. We encourage all visitors to report any concerns about the safety of children to a board member.

A handwritten signature in blue ink, appearing to read "Kathy Walker".

Kathy Walker, OAM
CHAIR – BOARD OF MANAGEMENT
